

**PLEASE DON'T ZAP ME...**

When you use your cell phone, you're damaging my body as well as yours!

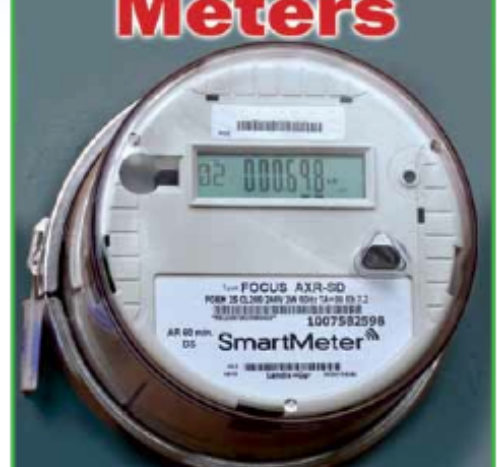

"Operation of a cellular telephone will expose a non-user to radiation, at levels that elicit undesirable biological effects, even though the phone may be more than 10 feet away from the non-user."  
- Robert Kane, PhD., former Motorola Senior Research Scientist

**CELL PHONES & WIFI ARE LIKE CIGARETTES**  
they are a public health issue, not just a personal choice

**Energy Canaries**

The invisible platform for wireless electronic communication is a swamp of not-natural electromagnetic energy (EE) that is generated and emitted by devices and networks in the form of dense waves that non-stop flood throughout most private and public areas. Our bodies absorb EE because they need natural EE to operate normally. So everyone's body is electrosensitive and reacts to EE. The problem is: your body was not designed to operate normally using not-natural EE.

Now you know, you can choose to prefer wireline communication platforms and provide them for other people. You can tell manufacturers and service providers to always provide the best modern wireline platforms. And you can tell regulators to reduce not-natural EE in all your environments (home, school, work, play, hospitals ... everywhere)!

wireless radiation symbol + the "no" symbol in yellow for caution + you know "canaries in the coal mines"

**PUBLIC HEALTH WARNING**  
WIRELESS DEVICES EMIT MICROWAVE RADIATION - a known biological hazard

EVERY TIME YOU USE A WIRELESS DEVICE, YOU ARE EXPOSED TO MICROWAVE RADIATION. The World Health Organization (WHO) labels this radiation a Class 2B possible carcinogen in the same category as lead, DDT and chloroform. Cell and cordless phones & other wireless devices, cell antennas and towers, "smart" meters, microwave ovens and WiFi routers all create "electrosmog."

MICROWAVE RADIATION IS HARMFUL. Scientists link wireless radiation to health problems. Both short and long term: cancer, infertility, damage to DNA and fetuses, sleep problems, memory and cognitive impairments, heart problems, immune deficiencies and many others.

MANY PEOPLE SUFFER FROM ELECTROMAGNETIC SENSITIVITY (EMS) and cannot tolerate common exposures, seriously impacting their health, jobs, housing, and social lives. GOVERNMENT REGULATIONS DO NOT PROTECT YOU. FCC guidelines were written decades ago and ignore current science linking wireless radiation to adverse health effects. In 2015, Berkeley, CA passed a law requiring consumer safety warnings at cell phone retailers. The wireless industry is suing under the guise of "free speech."

**Protect yourself and those you love:**

- GET WIRED! Ethernet cables provide faster, safer, more reliable internet connections.
- USE A CORDED LANDLINE. Cordless phones are as dangerous as cell phones.
- KEEP YOUR DISTANCE. TURN IT OFF. Ditch the cell phone! Manuals tell you to keep phones away from your body at all times. Turn it off or keep it on airplane mode.
- DO NOT USE WIRELESS DEVICES INSIDE METAL ENCLOSURES, like cars, elevators, buses, and trains, where radiation exposure is amplified for all onboard.
- WIRELESS RADIATION IS ESPECIALLY BAD FOR CHILDREN AND PREGNANT WOMEN. Prenatal and childhood exposure is linked to hyperactivity, brain changes, and autism.
- DITCH THE "SMART" METER - IT PULSES MICROWAVE RADIATION 24/7. Demand a non-electronic, electromechanical analog meter - no dirty electricity or RF radiation.
- AVOID SMALL AND LARGE CELL TOWERS. Fight to stop their proliferation.
- ALERT YOUR FRIENDS AND FAMILY - GET ORGANIZED. Inform and mobilize your community and kick cell towers and other wireless infrastructure out of your neighborhood!
