

"... EMF exposure was found to alter the reproductive endocrine hormones, gonadal function, embryonic development, pregnancy, and fetal development... These effects were different according to the frequency, duration of exposure, and strength of EMFs. Humans in modern society cannot avoid various kinds of EMFs... but should be aware of the biological hazard of EMFs. The effort to avoid EMF exposure and techniques to protect or relieve EMF radiation are required to preserve our reproductive potential."
Gye and Park

WHAT YOU NEED TO KNOW ABOUT WIRELESS RADIATION AND YOUR BABY

PRENATAL EXPOSURE TO EMF: EFFECTS ON CHILDREN

EFFECTS ON OFFSPRING PRENATAL EXPOSURE
Scroll down for study links

- Speech problems
- Headaches
- Hearing loss
- ADHD
- Obesity
- Urinary tract defects
- Delay in brain development
- Toxic to hematopoietic tissue
- Cerebellar cell effects
- Perinatal weight decrease
- Changes in hippocampal cells
- Irreversible sterility five generations

META-ANALYSIS: EFFECTS OF EMF ON MALES, FEMALES, OFFSPRING:

STUDIES: ADVERSE EFFECTS OF PRENATAL EMF ON CHILDREN

Studies

- [MW, spont. abortion](#)

BABYSAFE PROJECT: KNOW YOUR EXPOSURE

★ **BIOINITIATIVE CHAPTER: GENOTOXIC EFFECTS**

PREGNANCY, WIRELESS, AND EMF

ADVICE FOR POTENTIAL PARENTS
See: [EMF Hygiene](#)

- Use corded Internet connections
- Use corded communication devices
- Do not use Wi-Fi (at least, keep off when not in use)
- Minimize MW/RF exposure at work
- Minimize MW/RF exposure while traveling
- Pregnant women: don't linger near appliances
- Do not use an electric blanket, bed heater, etc.
- Ask health provider about melatonin, gallic acid
